

WASTEWATER TREATMENT CHEMICALS & PRODUCTS

CHEMICAL SOLUTIONS THAT WORK FOR YOU

BILLIONS OF GALLONS TREATED

JNE Environmental's complete line of wastewater treatment chemistry is specifically designed for industrial applications. Each JNE wastewater treatment product is custom tailored to our client's individual needs by our technical service staff.

ADDITIONAL SERVICES

- Compliance Plan Development
- Treatability Studies
- Composite Sampling and Wastewater Profiling
- Wastewater Site Assessment
- Wastewater Equipment Retro-Fit and Modifications
- Operator Training

ENGINEERING SUCCESS

The JNE Group of Companies have grown from one to hundreds of professionals from all major engineering disciplines providing services to a variety of clients around the world. Each business unit at JNE has an experienced core group to lead any project to a successful conclusion. JNE strives to deliver quality and exceed client expectations in a timely, flexible and economic manner. Our companies have succeeded based on time honoured values: *respect, integrity, diversity, and reliability.*

JNE Consulting

JNE Consulting provides comprehensive full-service multi-disciplinary engineering services, enabling clients to deal with a single source through all of the phases of project engineering, conceptual engineering, detailed design/engineering, procurement, construction, and startup. Our approach allows us to maintain efficient cost and schedule controls.

VISIT JNEGROUP.COM/CONSULTING

JNE Automation

JNE Automation designs custom control systems to optimize productivity, quality performance and reduce operational cost and risk. Our systems with varying levels of sophistication include software, SCADA, HMIs, micro and high level integrated multi-platform programmable logic controllers ("PLCs"), certified safety PLCs, and distributed control systems ("DCS").
